ABOUT US

SHERGILL TRANSPORT L.L.C is a professionally managed transportation, earthmoving, heavy machinery movement, and site construction services company committed to providing safe, reliable, and efficient solutions for construction, infrastructure, industrial, and civil engineering projects. Our services include the transportation of excavated materials such as soil, sand, rock, aggregates, and construction debris, along with the safe movement and relocation of heavy machinery including excavators, bulldozers, loaders, graders, rollers, and other specialized construction equipment. We also provide a wide range of site construction and support services, including site preparation, excavation support, land clearing, grading, leveling, backfilling, material handling, debris removal, and general earthmoving activities. With a strong focus on quality, safety, environmental responsibility, and customer satisfaction, our experienced team works closely with contractors, developers, engineers, and project managers to ensure every job is completed efficiently and according to project requirements. SHERGILL TRANSPORT L.L.C follows recognized quality, environmental, occupational health and safety, and In-Country Value standards, reflecting our commitment to responsible operations, professional service, and continuous improvement. By combining dependable transportation capabilities, heavy equipment handling, earthmoving expertise, and site construction support under one roof, we aim to provide our clients with complete and practical solutions for projects of different sizes and complexities.

Our approach is built on reliability, timely execution, proper planning, skilled manpower, well-maintained equipment, and strong coordination, allowing us to meet demanding project schedules while maintaining high operational standards. As we continue to grow, SHERGILL TRANSPORT L.L.C remains dedicated to strengthening our capabilities, expanding our range of services, and building long-term relationships with our clients by delivering dependable, cost-effective, and professional solutions that help move machinery, materials, and projects forward safely and successfully.

ST NOTES

SHERGILL TRANSPORT L.L.C provides reliable transportation, earthmoving, heavy machinery movement, site construction, manpower supply and material trading services for construction, infrastructure, and industrial projects. With a strong focus on safety, quality, efficiency, and timely execution, the company delivers practical solutions designed to meet diverse project requirements and support smooth, successful operations.

MESSAGE

It is our pleasure to welcome you to SHERGILL TRANSPORT L.L.C, a company built on reliability, safety, professionalism, and commitment to excellence. Since our establishment, we have focused on providing dependable transportation, earthmoving, heavy machinery movement, and site construction solutions for the construction, infrastructure, industrial, and civil engineering sectors.

We understand that every project has its own challenges, and our goal is to deliver practical, efficient, and timely solutions while maintaining high standards of quality and safety. Our success is driven by the dedication of our team, the trust of our clients, and our continuous efforts to improve our equipment, capabilities, and operations.

At SHERGILL TRANSPORT L.L.C, we aim to be more than a service provider. We strive to be a reliable partner who contributes to the smooth and successful completion of every project.

As we continue to grow, our vision is to expand our services, invest in our people and resources, and consistently deliver lasting value to our clients and partners.

CORE VALUES

At SHERGILL TRANSPORT L.L.C, safety is one of our most important core values and is integrated into every aspect of our operations. Whether we are transporting heavy machinery, handling earthmoving activities, or supporting site construction works, we follow responsible working practices to protect our employees, clients, equipment, and project sites. We believe that careful planning, proper coordination, and strict attention to operational procedures are essential for maintaining a safe and efficient working environment.

Quality and reliability define the way we serve our clients. We are committed to delivering dependable transportation and construction support services that meet project requirements, timelines, and expectations. Our team focuses on professional execution, well-maintained equipment, clear communication, and consistent performance to ensure that every assignment is completed with efficiency and attention to detail. Building trust through reliable service remains a key part of our long-term business philosophy.

We also place strong importance on integrity, teamwork, and continuous improvement. We believe in conducting our business with honesty, transparency, and respect while maintaining strong relationships with clients, employees, suppliers, and business partners. By encouraging teamwork, developing our capabilities, and continuously improving our operational processes, SHERGILL TRANSPORT L.L.C aims to provide better solutions, strengthen customer satisfaction, and achieve sustainable growth in the transportation, earthmoving, and construction sectors.

OUR MISSION

Our mission at SHERGILL TRANSPORT L.L.C is to deliver safe, reliable, efficient, and professional transportation, earthmoving, heavy machinery movement, and site construction solutions that contribute to the successful completion of our clients' projects. We are committed to supporting the construction, infrastructure, industrial, and civil engineering sectors by providing dependable equipment, skilled personnel, responsive service, and effective project coordination tailored to each client's operational requirements. Our mission is centered on maintaining high standards of safety, quality, environmental responsibility, and customer satisfaction in every assignment we undertake, whether it involves transporting heavy machinery, moving excavated materials, preparing construction sites, supporting earthworks, or providing related site services. We strive to build long-term relationships by delivering consistent performance, meeting project schedules, communicating clearly, and responding quickly to changing site conditions and client needs.

Through continuous improvement, investment in our people and resources, responsible business practices, and a strong commitment to operational excellence, SHERGILL TRANSPORT L.L.C aims to become a trusted and dependable partner for projects of all sizes while creating lasting value for our clients, employees, business partners, and the communities in which we operate.

OUR VISSION

Our vision at SHERGILL TRANSPORT L.L.C is to become a leading and trusted name in the transportation, earthmoving, heavy machinery movement, and site construction industry by consistently delivering reliable, safe, and high-quality solutions that support the growth of construction, infrastructure, industrial, and civil engineering projects. We aim to build a strong reputation based on operational excellence, professional service, customer trust, and long-term partnerships while continuously expanding our capabilities, fleet, workforce, and range of services to meet the evolving needs of the market. Our vision is to create an organization that is recognized not only for its ability to move machinery and materials efficiently, but also for its commitment to safety, environmental responsibility, innovation, and sustainable business practices. Through continuous improvement, investment in modern equipment, skilled personnel, and effective project management, we strive to enhance productivity, reduce operational challenges, and provide dependable support across every stage of our clients' projects.

As we grow, SHERGILL TRANSPORT L.L.C seeks to strengthen its presence in the industry, develop lasting relationships with clients and partners, and contribute positively to the successful development of major projects by becoming a preferred service provider known for reliability, integrity, efficiency, and excellence.

OUR EQUIPMENT

At SHERGILL TRANSPORT L.L.C, we maintain a diverse and dependable range of heavy equipment, vehicles, and specialized machinery to support transportation, earthmoving, site construction, material handling, lifting, and general project operations. Our equipment fleet includes bulldozers, cranes, dump trucks, graders, excavators, wheel loaders, JCBs, flatbed trailers, boom trucks, skid-steer loaders, diesel tankers, buses, forklifts, telehandlers, scissor lifts, generators, telescopic man lifts, air compressors, minibuses, pickup trucks, and support vehicles. Each machine is selected to meet the practical requirements of construction, infrastructure, industrial, and civil engineering projects, enabling us to handle excavation, grading, loading, lifting, hauling, equipment relocation, site preparation, workforce transportation, and other demanding site activities efficiently. We place strong emphasis on equipment reliability, regular maintenance, operational readiness, and safe working practices so that our clients receive consistent performance and minimum project disruption. With a versatile fleet and experienced operators, SHERGILL TRANSPORT L.L.C is well equipped to support projects of different sizes and complexities while delivering safe, timely, and professional solutions across every stage of site operations.

OUR SERVICES

At SHERGILL TRANSPORT L.L.C, we provide a comprehensive range of services designed to support construction, infrastructure, industrial, and civil engineering projects with reliable and efficient solutions. Our services include transportation, earthmoving, heavy machinery movement, site construction, equipment rental and support, manpower supply, trading material supply, excavation, grading, leveling, backfilling, land clearing, material handling, debris removal, lifting, loading and unloading, and general site logistics. With experienced personnel, dependable equipment, and strong operational coordination, we are able to manage both short-term requirements and long-term project needs while maintaining high standards of safety, quality, and professionalism. By combining transportation, manpower, machinery, construction support, and material supply under one organization, SHERGILL TRANSPORT L.L.C offers clients a complete and convenient service solution focused on timely execution, dependable performance, and successful project delivery.

EARTHMOVING SERVICES

Earthmoving services support the preparation, development, and maintenance of construction and infrastructure sites through efficient excavation, grading, leveling, backfilling, soil removal, and material movement. The service includes handling soil, sand, rock, gravel, aggregates, and other excavated materials using suitable heavy equipment such as excavators, bulldozers, loaders, and graders. Earthmoving activities are carried out according to project specifications, ground conditions, required elevations, and site development plans to create a stable and properly prepared working area for further construction activities. These services are commonly required for foundations, roads, drainage systems, utilities, industrial sites, land development, and large civil engineering projects. With careful planning, experienced equipment operation, and proper coordination between machinery and site teams, earthmoving services help improve efficiency, maintain accurate site levels, reduce unnecessary delays, and support the safe and successful progression of each stage of construction.

TRANSPORTATION SERVICES

Transportation services provide dependable and efficient movement solutions for construction, infrastructure, industrial, and civil engineering projects. The service covers the transportation of construction materials, aggregates, soil, sand, debris, equipment, machinery, and other project-related loads between sites, storage areas, and designated delivery locations. Each transportation requirement is carefully coordinated based on the type of material, load size, project schedule, road conditions, and site accessibility to ensure safe and timely delivery. Proper loading, load securing, route planning, vehicle selection, and unloading procedures are followed to minimize delays, reduce operational risks, and protect transported materials and equipment throughout the journey. Whether the requirement involves regular material deliveries, bulk transportation, inter-site transfers, or specialized project logistics, transportation services are designed to maintain smooth project operations, improve site productivity, and ensure that materials and equipment reach the required destination at the

HEAVY MACHINERY MOVING

Heavy machinery moving and transportation services are designed to safely relocate large, valuable, and specialized equipment between construction sites, industrial facilities, storage yards, and project locations. The service includes the transportation of excavators, bulldozers, graders, wheel loaders, cranes, forklifts, telehandlers, rollers, generators, and other heavy or oversized machinery used across construction and industrial operations. Each equipment movement requires careful planning to determine suitable transport vehicles, loading methods, securing arrangements, access conditions, and delivery routes according to the machinery's size, weight, and configuration. Special attention is given to safe loading, proper positioning, securing, transportation, and unloading to minimize the risk of damage and ensure efficient relocation.

SITE CONSTRUCTION SERVICES

Site construction services provide comprehensive support for the preparation, development, and ongoing operation of construction, infrastructure, commercial, and industrial project sites. These services include land clearing, excavation support, grading, leveling, backfilling, site preparation, material handling, debris removal, access preparation, soil movement, and general earthworks required before and during construction activities. Proper site preparation is essential for creating stable ground conditions, organized work areas, safe access, and suitable foundations for future construction. Activities are coordinated according to project drawings, engineering requirements, site conditions, timelines, and the sequence of planned works to ensure efficient execution. By combining manpower, machinery, transportation, and material handling within site operations, construction support services help improve productivity, reduce disruptions, maintain cleaner and safer work areas, and provide the practical groundwork required for successful building, infrastructure, and civil engineering projects.

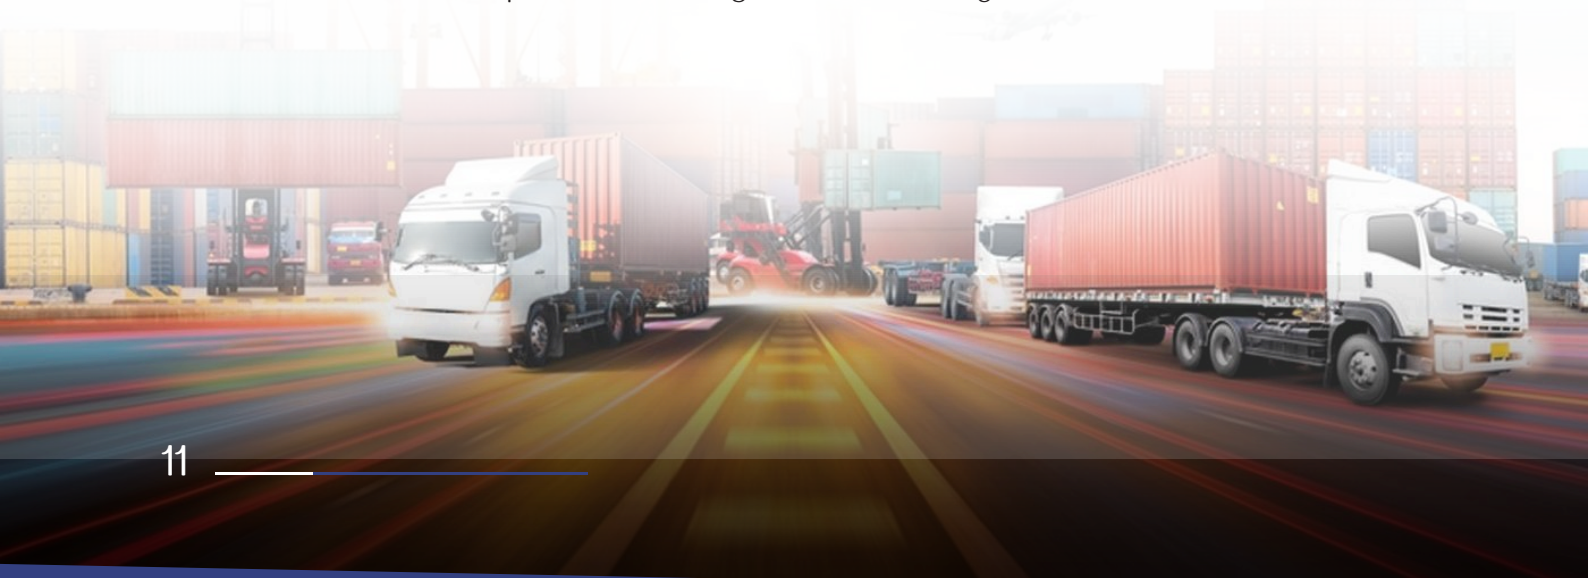

MANPOWER SUPPLY

Manpower supply services provide skilled, semi-skilled, and general personnel to support construction, infrastructure, transportation, industrial, and site-based operations according to specific project requirements. Workforce can be supplied for equipment operation, loading and unloading, material handling, site assistance, general construction activities, transportation support, maintenance work, supervision assistance, warehouse operations, and other operational duties. Manpower requirements may vary throughout different stages of a project, which is why flexible workforce deployment is important for maintaining productivity and meeting changing site demands. Personnel are selected according to job requirements, experience, operational responsibilities, and the working environment, with a strong focus on reliability, discipline, teamwork, and safety awareness. Whether required for short-term assignments, temporary workforce support, or long-term project operations, manpower supply services help clients manage workforce shortages, maintain project schedules, improve site efficiency, and ensure that day-to-day activities continue without unnecessary interruptions.

TRADING MATERIAL SUPPLY

Trading material supply services provide reliable sourcing, procurement, and delivery of a wide range of construction, industrial, civil engineering, and general project materials. The service may include the supply of sand, aggregates, gravel, soil, steel products, pipes, construction materials, tools, safety equipment, machinery accessories, spare parts, consumables, electrical items, mechanical components, and other essential site requirements. Materials are sourced according to required specifications, project quantities, quality expectations, budgets, and delivery schedules to ensure that clients receive the correct products when they are needed. Efficient procurement coordination and dependable logistics are particularly important for reducing material shortages and preventing delays in active construction and industrial projects. Whether the requirement involves one-time procurement, bulk quantities, recurring supply, or long-term project support, trading material supply services are focused on providing convenient access to essential resources while maintaining timely delivery, consistent quality, competitive sourcing, and smooth coordination from procurement through to final site delivery.
